

GOVERNMENT LOSES IN LONDON

Southwark By-Election Is Won By Conservatives By a Big Vote—3 Tickets

MAY FORESHADOW A NEW MINISTRY

Suffragette Attempts to Destroy Ballots By Throwing Chemicals and Injures Many Election Officials.

LONDON, Oct. 28.—The by-election today in the Southwark division of Southwark, a parliamentary constituency of London which was characterized by the most brilliant attack the suffragettes have ever made in their struggle for "votes for women," resulted in a sweeping victory for the Conservatives. John Dumphreys, Unionist, who has three times fought with a plurality of 85, overcoming the Liberal majority of 1,500 in 1906.

The vote follows: Dumphreys, 1,278; Hughes, Liberal, 377; Dr. A. Salter, Socialist, 1,155. The Unionist victory is considered a severe reverse to the supporters of the budget, as the election was expected to afford a good test of the feeling in London and the country generally on the impending struggle in parliament.

Bernadsky has been a doubtful constituency for years, sometimes returning a Liberal candidate and sometimes a Conservative. In the last few weeks a strong fight has been waged by the representatives of the three parties, but it finally resolved itself into a question of the budget. The suffragettes, however, were not content with this and they were looking upon an enforcement of the result of a general election should that be held.

The militant suffragettes were early on the scene and after adopting numerous expedients to harass the election officials and times most energetic identified with the election. Mrs. Chapin, one of the best known of the organization, slipped into one of the booths and smashed a bottle containing a corrosive acid upon a ballot box, with the evident intention of ruining the ballots, a large number of which had already been destroyed.

KILLS HUSBAND THROUGH BARS

Woman Has Him Arrested for Non-Support and Then Inflicts a Fatal Wound.

CHICAGO, Oct. 28.—Two hours after she had caused the arrest of her husband, Abraham Levy, a tailor, on a charge of abandonment, Mrs. Esther Levy visited the cell room today and before the startled keeper had a chance to interfere, shot through the bars at Levy, inflicting a fatal wound.

In the building at the time were a score or more of policemen.

Mrs. Levy stood in the corridor of the court, talking in a low tone to the prisoner, who remained locked in his cell. Suddenly she drew the revolver which had been concealed beneath her jacket and fired.

A prisoner who occupied the cell with Levy said that Mrs. Levy betrayed no excitement in conversing with Levy.

"Are you coming back to me and the children?" asked the visitor.

"No," answered Levy. "You put me here and here I remain. You tell your story to the judge."

Mrs. Levy then shot her husband. She was taken to the women's annex of the station, where she became hysterical.

When Mrs. Levy obtained the warrant for her husband's arrest, she charged that Levy had neglected his home for other women and that she had to work as a seamstress to support her four children.

COLLEGE WOMEN AND MARRIAGE

Graduates Answer Claim that Education Unfits Them for Duties in the Home.

CINCINNATI, Oct. 28.—The college women in the better equipped to serve in the home and for the uplift of humanity, according to the consensus of opinion shown in the discussions of the annual convention of the Association of College Alumnae in session here today, this organization is composed entirely of college women from all parts of the country, who are graduates of the twenty-four leading women's colleges.

Miss M. Cary Thomas, president of Bryn Mawr College, chairman of a committee that has taken statistics on marriage among the United States, reports that when men and women are educated together there is no greater number of marriages than when the sexes are educated separately; that 778 out of 1,000 college women marry; that 778 out of 1,000 college women marry; that the health of women improves while in college; that college women in general have better health than women who do not attend college; that college women marry stronger men and choose more wisely, selecting men of intelligence with incomes above the average; that one-third of the husbands of college women have higher salaries on the average than the husbands of women who never attended college.

In hearing children, Mrs. Thomas declared that college women had 3.6-10 children while non-college women had 3.3-10, an college women were in the land slightly although they married later in life than women who never attended college.

IOWA WOMEN SUFFRAGETTES

State Convention Resolves To Emulate English Sisters and Go To Jail If Necessary To Obtain the Franchise

DES MOINES, October 23.—The Iowa Equal Suffrage Association today adopted resolutions favoring the methods adopted by the suffragettes of England.

"The day for passive methods is past," declared the president, Rev. Eleanor Gordon of Des Moines. "I am for adopting more radical methods."

"And I," added Mrs. Julia Clark Hallam, "would go to jail for the suffragette cause. But if I were arrested, I would resist the officer to the last."

The resolution follows: "Resolved, That the women of the Iowa Equal Suffrage Association, wishing to strengthen the cause, do indorse obstructive methods in the legislature, and do further

"Resolve, That arrangements be perfected to carry out such methods."

Mrs. Hallam, vice-president of the Association, said tonight: "All I ask is for 100 women to stand with me and we can storm the Iowa legislature until we get something. We have progressed for thirty years along conservative lines and what have we accomplished? If there is any fight left in us, let us fight. Imprisonment would be child's play to the humiliation of going back to the legislature in another year and asking and begging for the rights of suffrage. All we need is the material, a good lawyer and money. There is a point where patience ceases to be a virtue."

"When the legislature refuses to consider our bill we can talk. Not all of us need talk at once, but one woman can block the legislature until she is put out and then another can take her place. This is not an invasion upon the legislature, but it is our purpose to see that we have our rights. If a policeman takes me by the arm I will not surrender to the law. I am a citizen of the United States and had no power in placing these men in the legislature. I will be there to fight for my rights as did my forefathers, and why have I not the same right to fight for a voice of the government?"

YOUNG GIRL ROUTS NIGHT RIDER BAND

Mob Had Broken in Father's House, When Daughter Emptied Gun at Them.

LEXINGTON, Oct. 28.—A slender girl, armed with a double-barreled shot-gun, put to flight forty masked night riders when they crashed down the door of her father's house last night in Madison county.

The mob appeared at the home of George Kreitz, evidently with the intention of whipping him, and when entrance was refused, the door was knocked in with an axe and with a crowbar. Kreitz's daughter, armed with a shot-gun, fired both barrels with deadly effect, scattering the mob and inflicting several wounds.

Before appearing at the Kreitz home, the riders went to the farm of a neighbor, Benjamin Longuecker, and shot through the windows, several bullets narrowly missing members of the family.

Longuecker is wealthy. He and Kreitz had sold their tobacco crops to independent buyers and had refused to enter the pool of the Burley tobacco society.

In hearing children, Mrs. Thomas declared that college women had 3.6-10 children while non-college women had 3.3-10, an college women were in the land slightly although they married later in life than women who never attended college.

After having been in the city jail for two weeks, De Lara was admitted to bail in the sum of \$3,000 today.

NEW SANTA FE DIRECTORS.

TOPEKA, Kan., Oct. 28.—Thomas DeWitt Kayser, of New York, was elected a director of the Atchafalaya, Topeka and Santa Fe Railway Company to succeed the late H. H. Rogers at the meeting of the stockholders today.

Paul Norton of New York and Benjamin P. Cheney of Boston were elected to the directorate. President H. H. Rogers said that the condition of the company was highly satisfactory to the stockholders.

PERSONAL LIBERTY IS GAYNOR'S CRY

Whereupon Bannard Denounces Him as a Demagogue—Hearst Is Quiet.

NEW YORK, Oct. 28.—With New York's municipal election only three working days distant, there was a general summing up of issues tonight by the eight hundred speakers who presented the cause of personal liberty to the audiences in every corner of Greater New York.

Gaynor, speaking four times in audiences in Brooklyn, Manhattan and the Bronx, returned to his plea for greater personal liberty, the abolition of police "bribe" and the abolition of the enforcement of minor laws.

Bannard, the Republican candidate, told seven mass meetings that he stood "first, last and all the time for a business administration in a Tammany-free city."

Identically, he attacked Gaynor's stand on the personal liberty question.

"Be aware of the candidate who tells you he will not enforce the laws," said Bannard. "He is a demagogue, a demagogue and his position in this matter is bound to lead to graft of the worst and most unscrupulous character."

Hearst was silent tonight but his followers, in ten mass meetings, kept the fire burning. At each meeting a long banner which hung above the stage bore the words: "Down With the Bosses of Both Parties." Bannard furnished the text for the speakers.

Gaynor's plea for personal liberty received an enthusiastic endorsement at a meeting of German-Americans in Cooper Union. At the conclusion of his address, resolutions were adopted declaring that the demand for the abolition of the police was the "most imperative" of the people's rights.

The resolutions offered the legal support of the meeting to the Democratic ticket, after declaring that German-Americans were "unmistakably opposed to a partisan Sunday as well as to local opinion and prohibition agitation, as it is an American and undemocratic."

Richard Croker, former Tammany leader, will arrive in New York tomorrow. His visit is not believed to have any bearing on the campaign, although he will remain here until after the election.

MAJOR WHO CARRIED "MESSAGE TO GARCIA" TO LEAVE SERVICE

WASHINGTON, Oct. 28.—Major Andrew S. Rowan of the Fifteenth United States Infantry, the man who carried General Miles' "message to Garcia" at the outbreak of the Spanish-American war, will be retired in December after more than thirty years service.

General Garcia, with his small force of Cubans, was nearly surrounded by the Spanish army in the interior of Cuba, and the success of Major Rowan's personal mission resulted in the later cooperation of the American and Cuban forces. Major Rowan has been stationed with his regiment at Fort Douglas, Utah.

BATTLESHIP LAUNCHED.

DEYONPORT, England, Oct. 28.—The new "Hafslund," a larger and improved battleship cruiser of the Invincible class, was launched today. This vessel will complete the quartet of battleship cruisers of this type designed for the British navy.

The indefatigable has a displacement of 18,000 tons, 45,000 horse-power, and a planned speed of twenty-seven knots an hour. Her length is 570 feet. She was laid down in January.

PIONEER SOLDIER DIES.

MONTEREY, Cal., Oct. 28.—Jonathan Wright, a resident of this city since 1848, is dead. He was a native of California and a member of the California legion, and later fought in the Mexican war.

TEMBLOR SHAKES NORTH

Eureka, Redding and Southern Oregon Affected

EUREKA, Cal., Oct. 28.—Via United Wireless.—A severe earthquake shock was felt in Eureka and throughout Humboldt county tonight. Windows and chimneys were shattered, both in the town and throughout the county. The most damage was done at Fortuna, but the total damage will not exceed \$5000.

REDDING, Oct. 28.—One of the most severe earthquake shocks ever felt in Redding took place at 10:45 o'clock tonight. Houses trembled and sleepers were awakened. Observers say that the shock lasted ten seconds or longer and that it was felt more violently than was the San Francisco earthquake of 1906. At Baird, on the McCloud river, twenty miles from here, where the United States fisheries station is located, the shock lasted so long that people called to their neighbors to get up.

The tremor was felt at Chico and as far north as Grant's Pass, Ore. Reports from Ashland, Ore., say it was not felt there.

So far as reported at this hour, (11 p. m.) no damage was done.

MARSHFIELD, Ore., Oct. 28.—A distinct earthquake shock was felt here at 10:45 p. m. tonight. No damage was done.

TO MAKE WAR ON PUBLIC SCHOOLS

French Catholic Bishops Inaugurate Political Movement Within the Church.

LEGISLATION MUST SATISFY THE POPE

Government Is Preparing a Bill for Protection of Teachers Against Parents; No Radical Action Likely

PARIS, Oct. 28.—A new and interesting issue has been created by the French Episcopal declaration of war against the public schools of France and the open attempt initiated by Archbishop Germain of Toulouse to rally the Catholic voters of the general elections of 1910 in support of candidates committed to the defense of church interests.

Archbishop Germain has formed an association of Catholic voters, the object of which is to influence the government to demand the re-establishment of religious peace, first by a direct contest between the sovereign and the pontiff or by new legislation accountable to the latter and assuring full liberty to the church; and, second, the re-establishment of complete liberty of education.

The archbishop says the situation of French Catholics is intolerable and that they must adopt the attitude of the Irish Catholics in the days of Daniel O'Connell and their German brethren as assumed against Bismarck's "Kulturkampf."

M. Donnay, minister of education, issued today a circular to school teachers instructing them to select the demand of the state as to the withdrawal of text books placed under the ban by the Episcopate. The circular announces further that children who refuse to use text books regularly approved by the government would be subjected to disciplinary measures.

Although the extreme and clerical radicals of the type of former Premier Combes urge that the state has come for the state to suppress completely the private and religious schools and to assume a monopoly of education, the general disposition of the Republican groups which accomplished the overthrow of church and state has been to limit of church and state campaign in the belief that the country was in no danger of reversing its adopted policy.

Nevertheless the government is preparing a bill for the protection of teachers who are subjected to persecution by Catholic parents and religious committees which are forming throughout the republic.

Frederic Briand, it is expected, will set forth the views of the government during a speech on public education which he is to deliver next Saturday.

SAN FRANCISCO, Oct. 28.—James Donnelly, the half-breed Indian who was arrested yesterday on a charge of having murdered an Indian named Campbell on the Hunga Valley reservation several years ago, was held to answer today by Judge W. W. Morrow of the U. S. Circuit Court.

ROCKEFELLER GIVES \$1,000,000

Hookworm, Scourge of the South, Is To Be Fought By an Endowment Provided By Standard Oil Magnate

NEW YORK, October 28.—A gift of one million dollars by John D. Rockefeller to fight "the hookworm disease" was announced at the office of the Standard Oil Company here late today.

A dozen well known educators and scientists, selected in large part from institutions of learning in the South, where the parasite is prevalent, were called in conference with Mr. Rockefeller's representatives at the Standard Oil Company's offices last Tuesday, and at that meeting Mr. Rockefeller's desire to organize a commission to carry on a campaign against the malady was discussed. As a result, the Rockefeller commission for the eradication of the hook worm disease was organized.

The members of this commission as selected by Rockefeller include Dr. William H. Welch, professor of pathology in Johns Hopkins University; Dr. Simon Flexner, president of the American Medical Association; Dr. Charles W. Stiles, chief of the division of zoology, United States public health and marine hospital service and discoverer of the American species of the hook worm, and Starr J. Murphy, Rockefeller's counsel, and John D. Rockefeller, Jr.

In calling these men together Tuesday, Rockefeller addressed to each a letter pointing out his interest.

The members of the commission, in framing a reply to Rockefeller's offer of \$1,000,000, endorsed the proposition with their heartiest approval.

"Two millions of our people are infested with this parasite," they added. "It is by no means confined to one class; it takes its toll of suffering and death from the intelligent and well-to-do as well as from the less fortunate."

"The hook worm," according to New York medical authorities, is a hair-like parasite to which is charged a form of anemia prevalent especially among the poor people of the South.

In December, 1902, Dr. Charles Wardell Stiles, then a zoologist in the bureau of animal industry at Washington, who has been studying intestinal parasites, announced to the Pan-American Sanitary Congress his conviction that the so-called "laziness" and "shiftlessness" widely observed in the South, was a specific disease due to "hook worm."

COOK IN CAMP OF HIS OLD ENEMIES

Fellow Citizens of Barrill and Prints Uphold Belief in Truth of Their Stories.

HOT CONTROVERSY BEFORE AUDIENCE

Explorer Makes Affidavit That He Ascended to Top of Mt. McKinley; Takes Coolly Result of Meeting.

HAMILTON, Mont., Oct. 28.—At the conclusion of a literary session in the opera house here tonight, during which charges and counter-charges were hurled back and forth between the friends of Edward N. Barrill and Frederick Printz and those who desired to see fair play given Dr. Frederick A. Cook in the home town of the guides, the audience adopted by a large majority vote a resolution expressing confidence in the veracity of Barrill and Printz, the resolution being presented by City Attorney Wagner, counsel for the guides.

This resolution was a substitute for one offered by one of the audience, in which he sought to have the meeting declare a lack of faith on the part of the entire people of Montana in all matters about which Dr. Cook had made claims.

While the action of the meeting was unfavorable to Dr. Cook, the explorer took it coolly and calmly and after the meeting evidenced no indications of having taken the matter to heart at all. He sat for a long time chatting pleasantly with interested listeners, regarding his trip to the Pole.

STATEMENTS CHALLENGED. The excitement of the meeting did not come until after Dr. Cook had delivered a brief lecture on his trip to the North Pole, and had delivered his supplementary speech regarding the statements of Mount McKinley. As soon as he had finished, Attorney Cutchell,

A newspaper correspondent, returned from a recent trip of careful political investigation through the Middle West, reports the "insurgents" in the great majority, among the rank and file of Republicans, and irreconcilably determined. He finds no symptoms of any revival of the Democratic party, but he does think that the time is approaching when the insurgents must either control the Republican party or start a new one. And he finds the whole body of the insurgent movement unanimous against Aldrich and Cannon, though without personal disrespect for either.

This is interesting from several points of view: The fact that the insurgents are in the majority in the Middle West indicates that at least in that section they can control the Republican party (which they prefer) provided the party is so organized that a majority can control it. They can be driven out only by minority usurpation. The fact that the Middle West, where the population is predominantly rural American, is the seat of the greatest insurgent movement, indicates how characteristically American that movement is. The original mugwump movement had its seat in New York and was academic and squeamish. The insurgent movement is more virile.

But most of all, the exact detailed form of this rapidly organizing sentiment indicates the power of print—of newspaper and magazines. These people, scattered in cities, hamlets and farms, as yet without organization, platform or leaders, are all thinking about the precise issues and the precise men that have been the subject of journalistic comment. All the magazines in America that anybody reads and all the newspapers that have any influence are "insurgent." The men competent to edit these publications are all of one opinion, and the few who permit themselves to be hired to express the contrary opinion never succeed in doing so convincingly. And these publications, partly because it is true and right, and partly by mere contagion, have all been emphasizing the perniciousness of the Cannon-Aldrich domination. Gradually the people, reading and believing, have concentrated sentiment on the same point. The people are right. But it was printers' ink enabled them to get together on this particular fight.

THE HOOKWORM

The most admirable of all the methods for spending money that have been devised by multi-millionaires is that pursued by John D. Rockefeller. Criticism of the means of gathering his enormous wealth need not alloy our respect for the impulse which urges the oil king to donate millions to the work of blotting out disease. Unnecessary sickness is the greatest cause of human misery.

The gift yesterday of one million dollars to endow a fight against the hookworm, or "lazy bug" of the South comes at a time when the nation is just awakening to the cause of the scourge. Its terror has long been known. The "poor whites" of the South have been called "shirking" for a century, but it ended only as a term of reproach. Why a whole race of people should be lazy was often asked, but no answer came until the last ten years. That the laziness in question is now a definite disease is well known. Its swift eradication is a national problem.

The same medical and sanitary methods which have in one way or another fought so successfully against smallpox, diphtheria, malaria and yellow fever, are now winning what was once thought to be a hopeless fight against consumption and leprosy. Medical science will doubtless grapple as well with the hookworm problem. It will be a boon to mankind when all such foes to population will be eradicated. We may well expect that some day life in the South will actually be as healthful as romance has made it happy; that not merely the plantation folks but the poor white trash will love their land and honor the South, with souls inspired thereby by healthy minds in healthy bodies.

NOT OUR BUSINESS

If the testimony, as given out in today's dispatches from Los Angeles, is all that has justified the arrest of De Lara, the Mexican, as an undesirable alien, he should certainly be turned loose at once, with apologies from the police department of Los Angeles. The only positive evidence is the opinion of two city detectives both with Mexican names, that in their opinion the utterances of De Lara are anarchistic. This is trivial and ridiculous. If it cannot be shown what De Lara's inflammatory utterances were, so that from them a jury can consider their effect, and if there is no showing of violence or preparation for violence on the part of the accused, the officials have apparently justified the suspicion that they have played into the hands of a vengeful Mexican government.

That Diaz has many spies in this country to watch possible plots against his continuance in power may well be believed. It is not our business to permit the American government to become a party to such surveillance, unless the enemies of Mexico begin actual preparations for war on this side of the border.

When the spread of prohibition through the country there is reason to believe that "dry farming" might be introduced in other sections besides the West.

"DRY FARMING"

The "dry farming" people have concluded to keep their name. Why not? It is the name their movement has come to be known by, and it is correct. It conveys no misunderstanding in the least, where the difference between irrigated and unirrigated farming are understood and it produces any misconception in the East, it is a favorable one. For, in that benighted region they still ask "do you have to irrigate?" as if irrigation were an evil. No higher recommendation for a style of farming could be made to those folk than to show that it can be done without irrigation. That is just the sort of farming they do themselves, and the only sort they know. And if it takes some difference in treatment to make unirrigated farming successful in the West, it should always be remembered that the deficiency in rainfall is more than made up by the extra richness and greater cheapness of the land. We of the West of course know that irrigated farming is the highest type there is, and that irrigation is a privilege, not a misfortune. But also we know that there are vast tracts of good land inaccessible to irrigation which can nevertheless be made to produce important crops by proper extensive cultivation. The methods of utilizing this land to its best advantage are of supreme importance to the whole West, and no one need be ashamed to call these methods by their accepted "dry" name.

NOT TRUE

Holding as he does a high and responsible position, Speaker Cannon should take pains to find out his facts before giving them utterance. Evidently he does not think it worth while. At least, this is one of the things he said in a speech at Elgin, Illinois, last week:

"I was in Iowa last week. It is an open secret there that Senator Cummins practically proposes to join hands with Bryan."

Now, we happen to know a little more about Senator Cummins' intentions than Mr. Cannon does, and the Speaker's version of them is not merely false, but grotesquely absurd. It is not "an open secret," nor a closed one, and it is not true. We suspect Speaker Cannon knows it is not.

Really, about the only use there is left for the Democratic party is its availability as a bugaboo, for Cannon and his faction to try to scare independent Republicans into line.

A woman's club of Denver has split up over the question of whether a woman is happier on the day when she is married or on the day when she is divorced. Which might be a difficult question as whether a man is happier before his tooth begins to ache or after it is pulled.

LYON RESIDENCE

IS BURGLARIZED

It was learned late last night that the residence of W. Parker Lyon at 1708 J street was entered by a burglar about two weeks ago and several hundred dollars' worth of silverware, including knives, forks, spoons, sugar bowls and sets were taken.

The loot was pawned at the Capitol jewelry store on Mariposa street and is now in that store. Although a description of the burglar has been given, he has not been apprehended.

FRIENDS FIND HIM JAILED AS ROBBER

After Search, Discover Him at Seattle, Accused of Holding Up Express Clerks.

SEATTLE, Oct. 28.—Charles D. Howell, former postmaster at Havre, Mont., and at one time a prominent politician there, disappeared last Friday and his friends after long search, found him today in the city jail, accused of having robbed the Great Northern express office in this city on the night of October 10. He had been arrested on the day his friends missed him.

A lone robber in a messenger's uniform entered the express office soon after midnight and after binding Night Clerk E. W. Simonson and Assistant Clerk E. P. White, took \$1,000 in gold and currency from the safe and escaped. The robber, who entered just after White had gone to luncheon, compelled Simonson to open the safe and then tied him with cords when White returned. He then bound him, and cut the telephone and telegraph wires and departed.

FINDS HIS WIFE AND SON DEAD

CHICAGO, Oct. 28.—Mrs. Charles H. Edgewood and her 4-year-old son, Charles, were found dead in bed in their home today by the husband and father. The room where the two lay was filled with gas which had escaped from a jet.

Edgewood insists that the jet must have been opened accidentally, but the police hold a contrary opinion and base it on the fact that the apartment was lighted with electricity.

Edgewood on returning to his home today discovered the dead mother and son. He declares there was no motive for his wife killing herself.

BODIES OF SAILORS TO BE BROUGHT FROM MACDALENA

VALLEJO, Oct. 28.—Carrying a dozen mechanics who are detailed to make repairs to the U. S. coal steamer at Pichilangua bay, Mexico, the auxiliary cruiser Buffalo sailed today from the Mare Island navy yard. Her orders call for her to proceed to Magdalena Bay and bring to the United States for internment the bodies of sailors now buried there.

BELIEVES POLICE

ARE SEEKING HIM

Gives Himself Up at County Jail.

Another Man Appears During Night; Feigns Insanity to Get Lodging.

Believing the police were hot on his trail, seeking to beat him to death, Charles Johnson, a "swampy" at the Capitol hotel on C street, rushed excitedly up to the jail yesterday morning and asked the officers to lock him up.

"Don't you see them coming?" he cried. Deputy Sheriff Collins, the man, who it appeared, was afflicted with a bad case of delirium tremens, and locked him up in a cell.

In telling his story behind prison bars, Johnson stated that two policemen were after him and described them. The descriptions fitted Officers Helms and Goehring. Officer Helms stated that early yesterday morning he was passing through the alley back of the hotel when he saw a man on his knees peering through a hole in a barn.

Helms got down on his knees and peered through the hole but could see nothing in the darkness.

"I don't see anything," he said to Johnson.

"Can't you see those snakes?" cried Johnson, and then Helms knew his man was demented.

After watching his antics for some time he left him and a short while later Johnson came rushing up to the sheriff's office asking to be locked up.

OTHER FEIGNS CRAZINESS.

A man, giving his name as Frank Williams appeared at the door to the jail last night shortly after 10 o'clock and asked Jailer Fenstermaker if he would lock up a crazy man. Fenstermaker called Deputy Sheriff Collins, and Collins queried Williams.

The man claimed that he had been sent up to Stockton from this county about a year and a half ago, but when an examination of the books showed that he was not in the county, he had come up about five and a half years ago.

Collins informed him he was not crazy enough to be locked up, and then Williams dropped all pretense of insanity.

He said he had walked from San Jose to Fresno, arriving here day before yesterday. He had been unable to find work and was broke and wanted some place to sleep.

"I can't get work and I'm broke. What's the use of living?" he said as he sat on the corner of the steps into the building. Collins talked with him a few minutes and then told him to go home up a barn and go to sleep.

FORESTERS ADJOURN

CHICAGO, Oct. 28.—With the installation of officers chosen at the recent election and the naming of the year, the annual session of the High Court, Independent Order of Foresters, adjourned today.

SEATTLE, Oct. 28.—It is evident from the attitude of a considerable section of the Korean population that the assassination of Prince Ito was not unpleasing. Those comprising this section represent the element which is now deprived of opportunity for further violence. Viscount Sone, Japanese resident general, is much disturbed by the reports coming in regarding the attitude of some officials and others who formerly were closely connected with the emperor's court.

It is believed now that the entire plot was hatched in Seoul and the closest investigation is proceeding to discover the instigators of Prince Ito's murder. It is believed that a secret society existed to spread the propaganda that Prince Ito's outward friendship for Korea was merely a blind. The report also was widely circulated that Japan prof all Koreans, depose the emperor and drive the people into the sea.

PALACE IS GUARDED.

The palace of the resident general is strongly guarded day and night. A feeling of uneasiness prevails in Korea and it is feared the assassination will be followed up by an active movement looking to a general uprising in the hope of independence by the United States or some other power.

Further absorption of Korean sovereignty by Japan. The ten Koreans arrested at Harbin will be rigorously examined with a view to discovering the instigators of the plot, of whom it is believed the assassin was merely the tool.

It can be stated confidently that the best element among the Koreans are still loyal to the memory of Prince Ito and it is not considered possible that the agitation will be successful in unsettling the country to any great extent, especially in view of Japan's announced intention not to change the policies promulgated by Ito.

BOUND TO TREE; ROBBED OF \$200

Man Is Held Up While in Buggy.

Robber Threatens Death If He Makes Outcry and Leaves Him Tied.

Taken from his buggy under threat of being shot, tied to a tree and robbed of \$200 in gold was the fate which met Frank Robinson, a labor contractor, near Malaga early Wednesday evening.

Robinson had received a large amount of money earlier in the day and had spent the afternoon paying off his laborers. As he was coming to his home in Malaga in a buggy shortly after dark, an unknown man jumped from the bushes at the side of the road, leaped into the rig and covered Robinson with his gun.

The robber then took the reins and drove the horse and buggy into a side street. Robinson was ordered to get out of the buggy and when he did so the robber seized him and tied him to a tree near the Malaga school house.

After securely binding his man to the tree, the robber went through his pockets and extracted \$200. As he was leaving Robinson he told him that if he cried out he would come back and blow his head off.

Robinson waited until he thought the man had gone a safe distance from the scene and then began to cry for help. He was soon surrounded by a mob of men, who heard his cries and rushed to the rescue. The man was unbound and taken to the saloon, where he told his story.

A telephone message was sent to the sheriff's office Wednesday night, and the sheriff and two deputies left immediately for the scene. Another trip was made there yesterday, but no clew to the robber was found.

Although Robinson was forced to leave his buggy and was bound to the tree he was uninjured.

It is believed that the robber is some one who knew that Robinson had the money and lay for him as he was returning to his home.

Robinson is an employer of Indian and Mexican laborers on the Nelson ranch near Malaga.

BROKER KILLED BY WOMAN WHO CLAIMS TO BE HIS WIDOW

GOLDENFELD, Nev., Oct. 28.—Webb H. Goldfield, a well known broker here, was shot and killed this evening by a woman who claimed to be his wife. It had not been known that Goldfield was married.

Goldfield was a dancer in a theatre here four years ago and the wife that she married in Goldenfield, California, two years ago. Later she lived in Portland, Oregon. Goldfield's parents live in Colorado.

San Pedro After Terminal Rates

LOS ANGELES, Oct. 28.—Before Special Examiner F. Lyon, representing the Interstate Commerce Commission, an effort to compel the Southern Pacific, the Salt Lake and other railroad companies to grant terminal rates to San Pedro, the port of this city, was begun here today. Behind the effort is the Los Angeles Jobbers' Association, which maintains that the failure of the railroads to grant such rates to San Pedro, now a part of this city, is in the nature of an unjust discrimination on the part of the railroads in favor of other ports.

The City Grocery Company, represented by Miner P. Goodrich, who is aided by Edward G. Kuster, attorney for the Associated Jobbers of Los Angeles, C. W. Durbin is attorney for the Southern Pacific and also represents the numerous other railroads complained against. W. R. Kelly represents the Salt Lake railroad.

Goodrich stated in opening the case that the complainant proposed to show that the harbor business interests are discriminated against by not having terminal rates to place it on an equality with other Pacific harbors.

In reply to queries from Durbin, he said he claimed potential as well as actual water competition as a factor in asking for terminal rates for San Pedro.

The complaint alleged unreasonable as well as discriminatory rates, but Goodrich said he would rest his case chiefly on the charge of discrimination.

"Would terminal rates benefit or injure you?" asked Examiner Lyon of C. J. Lehman, president of the Crescent Wharf Company of San Pedro.

"It would certainly benefit us," answered Lehman.

Lehman stated that San Pedro is discriminated against by the local rate between Los Angeles proper and San Pedro. Out-bound traffic can go to San Diego for the same rate as to Los Angeles, but it has to pay an additional rate to San Pedro, which keeps business from moving through this harbor.

Asked why the American-Hawaiian Steamship Company's vessels go to San Diego instead of coming to San Pedro, Lehman said:

"San Diego has terminal rates and the influence of the Santa Fe railroad. Much testimony was given to prove that San Pedro harbor can accommodate steamers as commerce, it being possible to dock vessels there drawing 24 1/2 feet of water."

E. W. Camp, general attorney for the Santa Fe, appeared at the hearing during the day and while indicating that his company is not especially interested in the case, he entered its appearance.

It is possible that the hearing will last through tomorrow.

COOK IN CAMP OF HIS OLD ENEMIES

(Continued from Page 4.)

leave his case in the hands of a non-judge—the people of the great state of Montana. I will accept their verdict."

Continuing, Dr. Cook said:

"At the time of my arrival in New York, after two years and three months in the Arctic regions, and when all America was rejoicing over the double discovery of the North Pole, there began a warfare to rob me of the glory of an achievement which was, and is, rightly mine. Confronted with my rival had triumphed after nearly a quarter of a century in quest of the great undertaking, I, with all good Americans, rejoiced in his success, and, in Copenhagen, declared that there was glory enough for two. Despite the bitter attacks which have been made upon me, my attitude in this respect is unchanged."

FLANK MOVEMENT.

"When this warfare failed, the enemy began this flank movement on the climb of Mount McKinley; men with money to burn in the name of infamy entered the arena. Men of this community whom I had previously believed honest fell victim to their greed. Still, I nurse no spirit of revenge or malice against these misguided men. My counsel, however, has been instructed to continue the investigation until we catch the guilty money-givers."

Hamilton and Missoula have clearly shown their disapproval of this battle of injustice. They have shown that they do not believe this malicious turn of rival powers. One of the most faithful pledges of humanity, nature worth more than millions thrown into the hell of bribery."

"For the present I am willing to trust my case to the citizens of Montana as a jury. After you have read the mass of testimony which my counsel has collected, I am ready to abide by your verdict. Then, with a new expedition to Mount McKinley, I will guarantee our future. Rejoice. My records are on the summit of the Alaskan peak, and accompanied by unbiased, fair minded men, I pledge you my word that I will again reach the top of the mountain and bring back this unquestionable proof of the success of my former expedition."

PATROLMAN DIES FROM DESPERADO'S BULLET

SPOKANE, Oct. 28.—Night Patrolman Alfred B. Waterbury, who was shot by a desperado last night, died early today.

Waterbury had ordered the man to halt. The answer was a pistol bullet. The patrolman's groin. Lying on the ground the wounded patrolman fired four shots at the fleeing assassin, but the man escaped. A heavy overcoat, a pair of trousers and a black mask were found along the thug's trail.

MAJOR GENERAL DIES

NEW HAVEN, Conn., Oct. 28.—Word was received here today of the death of Major General Robert P. Hughes, U. S. A. (retired), at Oremburg, Pa. In June, 1898, General Hughes was in command of the first military district in the Philippines. He was in command of the department of Cebu in 1900.

WEATHER CONDITIONS

SAN FRANCISCO, Oct. 28.—The following maximum and minimum temperatures are reported from Eastern Stations for previous day:
Chicago 55-60, New York 64-65; Omaha 58-62.
Forecast: San Joaquin valley. Showers followed by fair Friday; light north winds.

GENERAL CONDITIONS

Light snow flurries have occurred in the eastern side region and adjacent territory attending the passage of a moderate disturbance from the New England coast. Turbulence off the coast of the Rocky mountains, our weather prevails, under the influence of an area of high pressure occupying the Mississippi valley, the western slope there has been a general clearing, and the weather is generally clear and bright. It is probable that this storm will give continued cloudiness in Fresno and vicinity possibly with showers tonight and Friday.

W. L. FILLER, Local Forecaster.
Air temperature yesterday 54
Highest temperature yesterday 62
Lowest temperature yesterday 40
Humidity (percentage) off 51
Wind N.E. (and per hr) 15
Today's rainfall 0.00
Rainfall to date 0.00
Possibly showers Friday.

MARRIED

FRANK ELLIOTT—In Fresno, October 28, 1909, I have the honor to certify that Miss Mabel E. Elliott of Olean, New York, and Wallace officiating.

"DOWN WITH THE GERMS"

If you could observe the extreme care with which the modern surgeon cleanses hands and instruments before an operation, you would be impressed with the danger of germs and the importance of absolute cleanliness in its relation to health. The slogan of modern medicine is "Down with the germs." Germs thrive and multiply wherever they can find a lodging place in grime or dirt, but where things are scrupulously clean germs find it hard to live. The easiest and surest way to keep things clean lies in the use of Gold Dust washing powder. Gold Dust goes deep after dirt and routs out every germ and hidden impurity. It is the sanitary cleanser.

FALL FROM FAME OF "JIM" O'BRIEN

Contractor's Name Almost Immortalized.

Refuses to Accept Setback and Has Great Hopes for Future.

James H. O'Brien, contracting builder of the Associated Pine line, was a visitor to Fresno during the past two days. For the benefit of those who are not acquainted with the irascible James H. O'Brien, it may be stated that at one time he was the leader of the "Hobbs" and "Curtis" faction in San Francisco and such was a political power to be reckoned with in the municipal affairs of that metropolis. Later he added to his fame by building the railroad into Yosemite valley.

James H. O'Brien furthermore asserts that but for the jealousy of an army officer of Uncle Sam the name would have been mentioned down to posterity as have been those of William S. Jackson and Napoleon Bonaparte and a few others. He is the story and far as James H. O'Brien is concerned will be a thing of the past 500 years or so from the present time.

During the period that O'Brien was constructing the Yosemite railroad he desired himself to such an extent that men in his employ were not paid for three or four months. It was not until a person's life was worth for anyone to have invaded one of the working men's camps and have uttered anything against James H. O'Brien.

After the road had been completed and the men were engaged in constructing the wagon road leading from El Portal into the valley proper some of the laborers conceived the idea of doing something for their employer that would be appreciated. The opportunity presented itself when a monster granite rock was encountered and as the road was being blasted along a cliff hundreds of feet high on one side and with the Merced river thundering along a few hundred feet below on the other, there was nothing to do but to drill a hole and blast the rock away.

By dint of hard labor over some days this work was completed. It was then that the inspiration came. Among the workmen was a stime fellow laborer the suggestion of "Jim" O'Brien. The men at the top of the entrance of the tunnel to the Inspiration came. Among the workmen was a stime fellow laborer the suggestion of "Jim" O'Brien. The men at the top of the entrance of the tunnel to the Inspiration came. Among the workmen was a stime fellow laborer the suggestion of "Jim" O'Brien. The men at the top of the entrance of the tunnel to the Inspiration came.

All was well until one day an officer of the detachment of soldiers stationed in the valley happened to be traveling along the road and allowed his gaze to rest upon that name.

"That's O'Brien," he said, or words to that effect. "Who made this place? Who was no choice to defile the works of nature?" An investigation by the military authorities led to the discovery that O'Brien was a mere pest that happened upon the application of a sick of dynamite to the entrance of that tunnel. The name of James H. O'Brien though once what scattered went higher than even its ambitious owner had ever hoped for in his wildest dreams. Particles of the let his wildest dreams. Particles of the let his wildest dreams. Particles of the let his wildest dreams.

It was a cruel blow to O'Brien. All his hopes for immortality vanished with the explosion. But an O'Brien will not accept a setback as permanent. Now that he is engaged in building the Associated Pine line fresh hope have grown in his experience. Perhaps there may be an artist among his workmen who may paint his name and even his picture in place of a setback as permanent. Now that he is engaged in building the Associated Pine line fresh hope have grown in his experience. Perhaps there may be an artist among his workmen who may paint his name and even his picture in place of a setback as permanent.

BIG CLASS BEGINS STUDY OF BIBLE

Thirty-three Young Men Enroll at Y. M. C. A. for Systematic Scripture Reading.

Last night at the Y. M. C. A. thirty-three young men met together to enroll for the study of the Bible. This is a larger number than ever met before at the opening of the Bible classes. The enrollment in Bible classes this year will exceed that of last year. Classes were organized in all the following courses: First year, Bible Facts and History; second year, Life of Christ; third year, Leaders of Israel; fourth year, New Studies in Acts and a special course for High School students. Some of the men present have been in classes for three years and this year complete the four years' course. The largest enrollment, however, was in the first year course, as quite a large number of the men had never had any systematic Bible study before.

All of the classes are organized into what is called the Bible Study Club, which has for its purpose the study and lifting of interest in Bible study and bringing all the members of classes to gather once a month in a social way. The club has elected president of the club and the members pay 25 cents dues each month, which covers the expense of the monthly supper which the club expects to have.

GIFFEN COMPANY ENTERS HANFORD

Offer of Two Cents Causes Great Excitement Among Growers; Murder Trial in Progress.

HANFORD, Oct. 28.—Representatives of Giffen & Co., Fresno, merchants, were in Hanford today, offering 2 cents per pound for loose muscatel raisins of the 1909 crop. Their visit has caused no excitement among local raisin men, but that they mean business is shown by the fact that they contracted for 500 tons, Hanford delivery.

A alarm of fire was turned in yesterday afternoon from the home of O. M. Lacey, Fifth and Irwin streets, this city. The blaze originated from a cook stove placed too near the wall. The fire was extinguished with nominal loss, before the arrival of the fire department.

Clarence Fox and Nellie Hewitt Baker were united in marriage in Hanford today. Rev. J. W. Mount officiated. The ceremony was quietly performed at the home of Mr. and Mrs. J. J. Hight, and immediately afterwards Mr. and Mrs. Fox left for a brief visit in San Francisco. They will reside in Hanford.

The trial of Lee Phillips, the Indian who murdered a tribesman in cold blood a few weeks ago, is in progress in the Kings county superior court. Eight jurymen only were selected from the first venire of sixty.

IN THE LODGE ROOM.

J. O. U. A. M.

General George Washington Council No. 49, Junior Order United American Mechanics, held a short business session last evening at Odd Fellows hall. A college of members will meet at the hall at 2 o'clock Sunday afternoon and go to the cemetery for the purpose of decorating the graves of deceased members. There will be something doing next Thursday. Retrogressants will be served. The initiatory work will be exemplified.

ODD FELLOWS

The third annual roll call of Central California Lodge, Odd Fellows, No. 343, was held last night in Odd Fellows hall. The attendance was large and a most enjoyable evening was passed. Aside from the large number present, many members agreed to their names by sending a message or a letter. Three candidates were initiated. This was followed by a banquet in the dining room. A light refreshment was served and the members departed well pleased with the annual affair.

FRIENDS ATTEND PARKER FUNERAL

The funeral of W. H. Parker, the aged resident of Hanford, who died suddenly after his return from a visit to Alameda, was held yesterday afternoon at 2:30 from Stephens & Bean's undertaking parlors. There was a large attendance of friends and relatives. The pall bearers were John Hoxie, M. Phillips, William Hutchinson, J. B. Campbell, E. D. Edwards and H. C. Tupper. Interment was in Mountain View cemetery.

Parker was one of the best known of the early settlers. He served the county as a supervisor in the early days when Millerton was the county seat and afterward was a deputy sheriff under Sheriff Adelman. For a number of years he kept a store and hotel between White's Bridge and Hanford. He was widely known among the old timers and was universally liked.

NEW ROAD SOUGHT INTO REEDLEY TOWN

Olaf Strom and twenty-two other petitioners asked the supervisors for a public road from the west end of Reedley bridge in the northeast quarter of 28-15-23, south along the west bank of the Kings river to a point south of the north line of the section, abandoning that part of the road running north and south through the northeast quarter of 28 north of a point south of the north line of section 25. The proposed road will run over the land of George E. Rice so that there will be no cost for right of way. The petitioners for this road is represented to be that it will be cheaper to maintain, gives a shorter route to Reedley for those living along the road and as the present road cuts fire's land in two parts the petitioners for road along one side would leave his holdings intact.

RAISINS

Concerning the one and one-half cents advanced on raisins by the California Dried Fruit Agency, reports have been put into circulation by those who wish to injure the Growers' Company, to the effect that the grower must sign a note for the advance. We wish to announce that when the grower gets his advance he simply is required to sign a receipt for the money, which expresses on its face the number of pounds on which the advance is made and the amount of it.

Any and all assertions that are made to the grower which represent that he signs any kind of an obligation for the advance he receives are absolutely false in every respect, and are made maliciously for the direct purpose of injuring the Growers' Company.

BIG LEAGUERS PLAY HERE NOVEMBER 9TH

President Shuck Completes Final Arrangements For Exhibition Game Between the Athletics and All-Nationals

President Frank Shuck of the Fresno State League yesterday completed the final arrangements for the exhibition game between the Athletics and All-Nationals, which will be played here on November 9th. The game will be the first of a series of three games between the two teams, which will be played at the Fresno State League stadium. The Athletics will be managed by Bill Kelley, and the All-Nationals will be managed by Bill Kelley. The game will be the first of a series of three games between the two teams, which will be played at the Fresno State League stadium. The Athletics will be managed by Bill Kelley, and the All-Nationals will be managed by Bill Kelley.

Yesterday the clubs played in Seattle. Today they took up in Tacoma. Then came a jump to Portland, where they played Sunday. The two clubs leave for the south the same evening. Coming direct to California the Athletics will play the Sacramento Senators on Tuesday. On Wednesday the Athletics will play the All-Nationals at the Fresno State League stadium. The game will be the first of a series of three games between the two teams, which will be played at the Fresno State League stadium.

The Athletics will come direct to San Francisco and will arrive in time to witness the benefit game on Monday night between the Athletics and the All-Nationals. The Athletics will play the Sacramento Senators on Tuesday. On Wednesday the Athletics will play the All-Nationals at the Fresno State League stadium. The game will be the first of a series of three games between the two teams, which will be played at the Fresno State League stadium.

When the Athletics arrive in San Francisco, they will find the Athletics and the All-Nationals. The Athletics will play the Sacramento Senators on Tuesday. On Wednesday the Athletics will play the All-Nationals at the Fresno State League stadium. The game will be the first of a series of three games between the two teams, which will be played at the Fresno State League stadium.

With the entrance of the California State League into the ranks of or-

DRIVERS PRACTICING FOR THE VANDERBILT CUP RACE TO BE HELD ON LONG ISLAND, NEW YORK, OCT. 30.

LOUIS STRANG

With the prospect of a new speed record and the biggest entry list ever recorded, the Vanderbilt cup race, which will be held on Long Island, New York, October 30, promises to eclipse any previous contest for this time honored blue ribbon of the automobile world. That the event will remain a sporting feature of the year is indicated not only by the high character of the entries, which will include every American and foreign car and driver of note in the country, but by the extraordinary demand from clubmen and society folk for seats and boxes. The motor cup's holding committee, which will manage and operate the race, has expressed the opinion that the field will far out-number that in any previous race for the famous trophy. It is doubtful whether any course in the country is better adapted to a race of this character. The circuit is fast and broad, without a single hill to check the speed of the cars. There are no dangerous turns, and the sharpest of those existing will be banked to insure absolute safety to the drivers. While no announcement of the official entries is possible at this date, enough favorable responses have been received from individuals and manufacturers to indicate that over thirty-five cars are in sight, and that possibly fifty or sixty will start in the race. The course is 12.54 miles long, of which 5.15 miles are on the Long Island Motor parkway and 7.39 miles on the highway and roads of Nassau county.

JOHNSON ARRIVES IN NEW YORK; JEFF READY

Colored Heavyweight Champion Is Given Tremendous Reception—Fighters Will Meet At 3 O'clock This Afternoon

NEW YORK, Oct. 28.—The match for the heavyweight championship of the world between Jack Johnson, the negro champion, and James J. Jeffries, the retired title holder, will be arranged at a meeting of the principals and their managers at 3 o'clock tomorrow afternoon in this city.

The arrangements for the meeting were made by George Little, manager of Johnson, and Sam Berger, who represented Jeffries, who held a conference a few hours after the arrival here of Johnson from Chicago today.

NEW YORK, Oct. 28.—"I am glad to get back to New York. I have come all the way from San Francisco to meet Mr. Jeffries and sign articles for our battle, and I am willing to make the match under any fair conditions," said Jack Johnson, the negro heavyweight, as he disembarked from the Twentieth Century Limited from Chicago at the Grand Central station today.

There was a big crowd on hand, including many of his negro friends, to welcome Jeffries' rival. Johnson was accompanied by his manager, George Little. The two men had some difficulty in getting through the crowd, which gathered around the station platform and crowded and cheered the champion.

RECEPTION FOR CHAMP. Johnson grinned from ear to ear as the crowd gathered around and shook him by the hand and asked him about the fight with Jeffries.

"I hope to meet Jeffries at once, the sooner the better," said Johnson. "I never felt better except that the hold on my neck bothers me now. I weigh about 305 pounds. How did I get that? I guess I have been living too high."

Speaking of the match with Jeffries, Johnson displayed an evident desire to have the articles signed right away and the negotiations for the contest concluded.

"George Little, my manager, will see Sam Berger," said Johnson, "and arrange for a meeting. Of course, I shall be at the meeting, for Jeffries and I can do more in five minutes to settle this matter than all the go-betweens can do in a day."

"I am ready to abide by the conditions that I entered into with Berger except that I shall ask for a winner's and loser's division of the purse."

JEFF DEE-LIGHTED. Jeffries was delighted when he heard that Johnson had reached the city and said he was ready at any time to arrange terms.

The ex-boxmaker put in some time today in gymnasium work.

Little went at once to the hotel where Jeffries and his manager, Sam Berger, are staying, and was informed that the former champion and Berger had gone out. Little expressed surprise that Jeffries should not have returned to meet him, knowing that Johnson and himself would arrive today.

Little left a note for Berger, saying that Johnson and himself would be at the hotel all day to make the match. The hotel all day to make the match. The hotel all day to make the match.

As to the \$50,000 which I put up some time ago that Johnson would fight," Little said, "I am willing to bet that sum at even money that Johnson wins, and, further, will wager \$10,000 more at the prevailing odds that Johnson will be defeated."

"I understand that Jeffries spoke contemptuously of the pictures of the Johnson-Ketchel fight and that he said it was a bout between a washerwoman and a boxer. If Jeffries thinks Ketchel is like a washerwoman, let him fight him. Ketchel has a terrible right hand."

Little then returned to the hotel.

where Johnson is stopping. Johnson said he thought the fight would take place in California.

RED LEAF, KEENE'S FAMOUS RACING MARE DIES AT EMERYVILLE

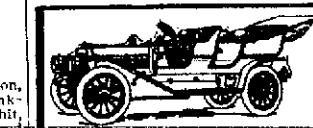

Red Leaf, the famous racing mare of the Keene stable, died at Emeryville race track yesterday. She had been recently arrived from British Columbia, where she was campaigned during the summer, and caught a cold while on her way from the north. The ailment developed into pneumonia, and she succumbed.

Red Leaf was one of the best winners bred by Hermance, and as a 3-year-old, after Jack Keene had acquired her, she won more races than any horse on the American turf that year. It was in 1908, the same year that he acquired the contract on Ken- nedy, Radtke, the premier apprentice jockey of the season.

After a most successful summer and fall campaign on the Kentucky race tracks, the Keene brothers shipped their stable to California. Red Leaf and Radtke proved a winning combination and contributed largely to placing the list of winning owners when the local racing season ended.

Red Leaf was more than a good bread winner for a valuable asset, and again proved a valuable asset, and again proved a valuable asset, and again proved a valuable asset.

Three times that year after Jack Keene had "gone broke," in the purchase of the race track, Red Leaf put him on his feet again in races at Emeryville. A year later she again brought Keene out of a hole by winning the \$4000 Christmas handicap good odds. In the following March the mare was beaten by a mare by Tony Fout for the Waterhouse cup at two miles and a quarter.
